

THE HIDDEN HORIZON

Rules, Regulations, Budget & Resources

Submitted For The Hidden Horizon — Event Planning	Organized By Rakshitha & Radhika
Document Covers Rules + Budget + Resources	Event Format Multi-Round Campus Treasure Hunt

SECTION 1 — RULES & REGULATIONS

A. General Event Rules

The following rules apply to all teams throughout the entire event:

- All participating teams must register before the event. No late registrations will be accepted on the day of the event.
- Each team must consist of a fixed number of members (as decided by the organizers). No additions or replacements are allowed once the game begins.
- All team members must be present at the classroom briefing. Any team with incomplete members at the start forfeits their right to play.
- Teams must behave respectfully with all volunteers, organizers, and other participants. Any rude, aggressive, or unsportsmanlike behaviour results in immediate disqualification.
- Vandalism, tampering with other teams' clues, or deliberately misleading other teams is strictly prohibited and will lead to disqualification.
- All decisions made by the organizers (Rakshitha and Radhika) are final and cannot be challenged.
- Teams must not share clues, locations, or answers with other teams at any point during the game.
- Use of mobile phones to search for answers online is strictly not allowed. Phones may only be used for QR scanning (with volunteer supervision).

B. Round-Wise Rules

Round 1 — Elimination Round

When it applies:

- The Elimination Round is conducted ONLY if 10 or more teams are registered. If fewer than 9 teams participate, all teams proceed directly to the classroom briefing.

Question Paper Rules:

- Each team receives one question paper containing exactly 20 questions — a mix of Emoji Film Guesses and Number Puzzles.
- Teams must attempt all questions independently. Discussing answers with other teams is not allowed.
- The paper must be submitted to the volunteer when the team is done — the time of submission is recorded as the team's official completion time.
- No corrections or re-submissions are allowed once the paper is handed in.

Qualification Rules:

- If exactly 10 teams participate — top 6 teams (ranked by time and correctness) advance to Phase 2.
- If more than 10 teams participate — top 8 teams advance. In case of a tie in timing, the team with more correct answers ranks higher.

Round 2 — Classroom Briefing Rules

- All qualifying teams must arrive at the classroom within 5 minutes of being called. Latecomers may lose their turn.
- Team names are officially assigned by the organizers during this phase. Teams cannot choose or change their names.
- The location riddle given at the briefing is the team's first clue. It must not be shown or described to other teams.
- All teams start simultaneously only after the heads (Rakshitha and Radhika) give the official signal. Starting early is grounds for disqualification.

Round 3 — Treasure Hunt Rules (All Stops)

At Every Stop:

- Teams must announce their official Team Name to the sitting volunteer at every location before receiving any clue or task.
- Clue papers are team-specific. Teams must not pick up, look at, or use clues meant for other teams.
- QR codes must be scanned only by the team's assigned volunteer. Teams cannot scan QR codes on their own.
- Teams must complete each stop's task before the volunteer scans the QR for the next location. Skipping a task is not permitted.

Stop-Specific Rules:

- Library — Teams must not remove books from the rack permanently. Books must be placed back after finding the code.
- Canteen — Each puzzle in the optional challenge must be solved independently. Volunteers will not offer hints. Skipped puzzles mean a permanently incomplete code.
- Gym — The challenge presented must be completed in full by the team together. Partial completion does not qualify.
- Computer Lab — Teams must locate the target laptop using only the clue provided. They must not disturb other laptops or access any computer files.
- Outdoor — Teams must stay within the map boundaries. Going outside the designated area is a rule violation. All 5 fossils must be physically collected — partial collection does not qualify.

Round 4 — Final Cipher Challenge Rules

- Only teams that have collected all 5 fossils from the outdoor location are eligible to attempt the Final Cipher Challenge.
- Each team solves the cipher independently. No collaboration with other teams is permitted at the final location.
- The first team to correctly decode the cipher and present it to the organizer wins the Final Gift. The organizer's verification is mandatory — self-declared winners are not accepted.
- In the event of a dispute at the final stage, the organizers will review volunteer logs to determine the legitimate winner.

SECTION 2 — BUDGET PLAN

The budget is divided into 4 categories aligned with the game phases. All amounts are estimates and should be adjusted based on the actual number of teams and local pricing.

Category 1 — Elimination Round Materials

Item	Details	Qty	Est. Cost (Rs)
Question Paper Printing	20 Qs per team, B&W print	Per team × 10 sets	
Answer Sheets	Blank ruled sheets	10 sheets	
Pens / Pencils	For teams without stationery	10–15 units	
Timer / Stopwatch	To record submission time	1–2 units	
Sub-total (approx.)	Rs. 150 – 250		

Category 2 — Hunt Location Setup

Item	Purpose / Location	Qty	Est. Cost (Rs)
QR Code Printing (laminated)	One per team per stop × 5 stops	30–40 QR stickers	
Dragon Picture Papers	Canteen & Comp Lab stops — hidden papers	8–10 copies	
Clue / Riddle Papers (per team)	Library rack riddles, Lab positional clues	6–8 sets	
Tape / Stickers / Adhesive	Fixing papers under chairs, racks, laptops	2 rolls	
Fossils (physical props)	Outdoor location — 5 per team's route	30–40 items	
Printed Maps (Outdoor)	Custom area map per outdoor location	6–8 prints	
Marker pens / Label stickers	Labelling clue envelopes, QR positions	5–8 units	
Sub-total (approx.)	Rs. 400 – 700		

Category 3 — Volunteer & Coordination

Item	Purpose	Qty	Est. Cost (Rs)
Volunteer ID / Name Tags	To identify role at each station	12–15 tags	
Volunteer Instruction Sheets	Printed briefing for each volunteer role	12–15 sheets	
Envelopes / Folders	For organized clue distribution at each stop	30–40 envelopes	
Refreshments for Volunteers	Water / snacks for 12+ volunteers	Per volunteer	
Sub-total (approx.)	Rs. 300 – 500		

ESTIMATED TOTAL BUDGET

Rs. 3000

Note: Final budget will vary based on number of teams, prize quality, and printing costs. It is recommended to keep a 15–20% buffer over the estimated total.

SECTION 3 — REQUIRED RESOURCES

A. Human Resources (People Needed)

Role	Responsibility	No. Required
Event Heads	Overall coordination, start signal, final verification, dispute resolution	2 (Rakshitha & Radhika)
Team Volunteers	Assigned 1 per team; accompanies team, assists QR scanning, enforces rules	6–8 (one per team)
Library Volunteer	Stationed at Library; verifies team name, hands correct rack riddle paper	1
Canteen Volunteer	Stationed at Canteen; manages Dragon paper search, presents optional puzzles	1
Gym Volunteer	Stationed at Gym; presents challenge, verifies completion before QR is given	1
Computer Lab Volunteer	Stationed at Lab; ensures Dragon wallpaper laptop is set up, verifies correct laptop identified	1
Outdoor Volunteer(s)	Stationed at outdoor spots; manages map distribution, verifies fossil collection	1–4 (one per location)
Final Location Volunteer	Manages cipher distribution, receives answers, signals heads when a team completes	1
TOTAL	12+ Volunteers (minimum 12, recommended 14–15 for smooth operations)	

B. Physical & Printed Materials

Item	Details	Quantity
Elimination Question Papers	20 questions each — Emoji Film Guesses + Number Puzzles, B&W printed	10–12 sets
Team Name Cards	Official team names (e.g., Dragon, Phoenix, Titan) — given in briefing	1 per team
Location Riddle Papers (Briefing)	First riddle pointing to first stop — team-specific, sealed envelopes	1 per team
Library Rack Riddle Papers	Team-specific riddle pointing to book/rack — given by library volunteer	1 per team
Dragon Picture Papers (Canteen)	Physical paper with Dragon image, hidden under chairs/tables with incomplete code under it	1 per team

Canteen Puzzle Cards	One puzzle card per missing character of the code — held by canteen volunteer	3–5 per team
Dragon Wallpaper Setup (Lab)	One specific laptop to be configured with Dragon wallpaper before the game	1 laptop
Lab Positional Clue Paper	Clue like 'Row 3, near window' — given at lab stop	1 per team
Outdoor Maps	Custom printed map of each outdoor location — includes routes, danger zones, fossil sites (all unlabelled)	1 per team
Fossil Props	Small physical items hidden in outdoor area — must be collectible and visually distinctive	5 per team route
Cipher Code Papers (Final)	The final encoded message — given at last location. One set per team	1 per team
QR Codes (printed & laminated)	One QR per stop per team, pointing to next location. Stick/place at each stop position	5 per team
Winner / Participation Certificates	Printed certificates for winning team and all participants	20–30 sheets
Chits (Outdoor Location Draw)	4 chits per team (Ground, B-Block, Hostel, Parking) for random outdoor spot selection	4 chits × teams

C. Digital & Technical Resources

QR Code System:

- QR Generator Tool (free online) — to create unique QR codes pointing to next-location URLs or reveal messages.
- Smartphones for volunteers to scan and display QR results during the game.
- QR codes should be laminated and placed at predetermined positions at each location before the game starts.

Laptop / Computer Lab Setup:

- One laptop in the computer lab must have its wallpaper changed to the Dragon image before the game begins.
- The volunteer at the lab must revert the wallpaper after all teams have visited (if needed).

Timing & Scoring (Elimination Round):

- A spreadsheet (Google Sheets or MS Excel) with team names, submission time, correct answers, and ranking formula is recommended for quick results during elimination.

Communication:

- A WhatsApp or walkie-talkie group for all volunteers and organizers — to coordinate in real-time during the hunt, especially for outdoor locations.

D. Venue & Space Requirements

Location	What is Needed	Pre-Game Setup Required?
Classroom	Seating for all teams, board/screen for announcements, space for briefing	Yes — arrange seating
Library	Volunteer seated, clue papers organized by team name, code hidden in target books	Yes — hide codes before game
Canteen	Dragon papers hidden under chairs/tables, puzzle cards ready with volunteer	Yes — hide papers before game
Gym	Challenge materials ready (trivia cards / physical props), volunteer stationed	Yes — prepare challenge
Computer Lab	Dragon wallpaper set on target laptop, volunteer seated, positional clue ready	Yes — set wallpaper
Outdoor Areas	Fossils hidden at designated spots, maps printed and with volunteer, boundaries marked	Yes — hide fossils + maps
Final Location	Cipher papers ready, volunteer stationed, organizer nearby for winner verification	Yes — set up cipher station

THE HIDDEN HORIZON | May the best team find the treasure.
